When you use file, you avoid storing the file you're sending in your cloud storage or mail server. We have no file size limit. Our service is completely free for everyone. You can give this download link to your friends by mail or instant messenger. There are no restrictions on the number of times a file can be downloaded. Just upload the file you want to share with your friends and we send you a download link to your file. You can upload any type of file (movies, music, documents, images, zip files and more). Files can be downloaded from any computer from our high speed servers. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Using file, you can circumvent those limits without paying to upgrade your team chat service. Alternatively you can choose to share your download links on blogs, forums and social networking sites. If only we could, we surely would! On the other hand, using file can actually save you money. Any file in any format can be uploaded and downloaded for free. It is also allowed to link to the download page from websites and communities. You don't need any special softwareinstalled to be able to download your files. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. No account or credit card isrequired to get started. You decide who you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When youshare a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Simply upload your file andshare the link. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files transferred the old-fashioned way tend topile up and be forgotten about, eventually costing you money in data storage fees. filehosting provides an easy possibility for you to send large files to you
