File is free to use with no gotchas and no hidden fees. Any file in any format can be uploaded and downloaded for free. filehosting provides an easy possibility for you to send large files to your friends. Using file, you can circumvent those limits without paying to upgrade your team chat service. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Unfortunately, we can't make that part free. Simply upload your file and share thelink. Keep your files private, or send your download links only to friends or family. Our service is completely free for everyone. If only we could, we surelywould! On the other hand, using file can actually save you money. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventuallycosting you money in data storage fees. We have no file size limit. Just upload the file you want to share with your friends and we send you a download link toyour file. You decide who you want to share your files with. No account or credit card is required to get started. The cost of that data transfer is covered by yourinternet service or the data plan on your phone. So try our free and simple filehosting service now. Your wallet will be none-the-lighter! Just so we're all 100%clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Youcan give this download link to your friends by mail or instant messenger. Files can be downloaded from any computer from our high speed servers. You canupload any type of file (movies, music, documents, images, zip files and more). Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You don't need any special software installed tobe able to download your files. Alternatively you can choose to share your download links on blogs, forums and social networking sites. There
