Maybe even better than free.

You don't need any special software installed to be able to download your files. filehosting provides an easy possibility for you to send large files to your friends. There are no restrictions on the number of times a file can be downloaded. So try our free and simple filehosting service now. Using file, you can circumvent those limits without paying to upgrade your team chat service. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. If only we could, we surely would! On the other hand, using file can actually save you money. You can upload any type of file (movies, music, documents, images, zip files and more). Just upload the file you want toshare with your friends and we send you a download link to your file. You decide who you want to share your files with. The cost of that data transfer iscovered by your internet service or the data plan on your phone. Unfortunately, we can't make that part free. Any file in any format can be uploaded anddownloaded for free. You can give this download link to your friends by mail or instant messenger. It is also allowed to link to the download page fromwebsites and communities. Our service is completely free for everyone. Files can be downloaded from any computer from our high speed servers. Alternativelyyou can choose to share your download links on blogs, forums and social networking sites. We have no file size limit. File is free to use with no gotchas and nohidden fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Simply upload your file and share the link. Filestransferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. When you use file, you avoidstoring the file you're sending in your cloud storage or mail server. Keep your files private, or send your download links only to friends or family. No accountor credit card is required to get started. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device.
