Levante juntos el Filtro Redondo con el Filtro de Acero Inoxidable. PASO 8. Para quitar la Canasta del Filtro de Acero Inoxidable, de vuelta al Filtro hacia abajo y cuidadosamente quite el Filtro. Es recomendable que remueva el Filtro en un fregador. Page 27 CUIDADO Y LIMPIEZA cont Consejo Para minimizar el lavado le recomendamos colocar una bolsa de plástico para recoger la pulpa o una bolsa de plástico del supermercado Cuando termine simplemente recoja la bolsa Para ideas de cómo usar la pulpa ver página 19. NOTA! NOTA! 52 Para remojar el Filtro de Acero Inoxidable en agua jabonosa y caliente por 10 minutos aproximadamente después de usarlo. Si la pulpa se queda en el filtro, causará que el filtro se tape y no tendrá la misma efectividad. Page 28 INFORMACION ALTERNA Aunque las bebidas de jugo en este folleto se desarrollaron pensando en el sabor, la textura y el aroma, los beneficios para la salud ciertamente son un valor añadido a la experiencia de un sabor agradable. El 95% del contenido en nutrientes de la fruta y los vegetales se encuentran en el jugo.

<http://eco-region31.ru/bosch-hmd-5331-manual>

Los líquidos extraídos de las frituras frescas y los vegetales forman una parte importante de una dieta balanceada. Page 29 CONSEJOS PRACTICOS cont COMO OBTENER LA MEZCLA ADECUADA

No es difícil obtener una receta con gran sabor. Si usted ha estado haciendo sus propios jugos vegetales y de frutas, entonces usted sabe lo simple que es inventar nuevas combinaciones. El sabor, color, textura y preferencias de ingredientes son algo personal. Simplemente piense en algunos de sus sabores y comidas favoritas. Combinaran juntos o no. Algunos sabores fuertes se sentirán más que los sabores más sutiles. Sirva inmediatamente. Page 36 FIBRAS FAVORITAS cont MOUSSE DE ARANDANOS Y CHOCOLATE BLANCO Para 6 personas 8 oz 200 g de chocolate blanco 1 taza 200 g de pulpa de fresa 1 taza 200 g de pulpa de frambuesa 1 cucharada 15 ml de polvo de gelatina disuelta en 3 cucharadas 45 ml de agua caliente 3 yemas de huevo 1 4 taza 300 ml de crema espesa 1 4 taza 50 g de azúcar para glasear 2 cucharadas 30 ml de Grand Marnier 1. Derrita el chocolate sobre agua caliente, enfrielo, con cuidado de que no se asiente. Learn more opens in a new window or tab This amount is subject to change until you make payment. Cualquier uso de los graficos We design and manufacture consumer products with the safety of you, our valued customer foremost in mind. In addition we ask that you exercise a degree of care when using any electrical appliance and adhere to the following precautions Close supervision is necessary when this appliance is being used near children. Do not allow children to use this appliance. Do not unfasten clamps while juicer is in operation. If food becomes lodged in opening, use food pusher or another piece of fruit or vegetable to push it down. When this method is not possible turn the motor off and disassemble juicer to remove the remaining food. If found damaged in anyway, immediately cease use of the appliance and call Breville Customer Service at 1866Breville. Close supervision is necessary when this appliance is near children. If the plug does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way. Do not allow children to be near or use this appliance without close adult supervision.

<http://demenagementlandry.com/images/9652-manual.pdf>

If you must use a longer cordset or an extension cord when using appliance, the cord must be arranged so it will not drape or hang over the edge of a countertop, tabletop or surface area where it can be pulled on by children or tripped over. To prevent electric shock, personal injury or fire, the electrical rating of the extension cord you use must be the same or more than the wattage of the appliance wattage is marked on underside of appliance. Makes juicing fruit and vegetables easy and fast. The bag may also prevent pulp from spitting out of the pulp container. When juicing carrots place the tip of the carrot in last. Using the Food Pusher, gently guide food down the Feed Chute. To extract the maximum amount of juice, always push the Food Pusher down slowly. When the juicing is

completed simply place the bag containing the pulp into a bin. Fresh fruit and Juices are rapidly Freshly extracted juices should be drunk just after they have been made to avoid a loss of vitamin content. Do not place froth attachment into dishwasher. Always treat the Filter Basket with care as it can be easily damaged. To help prevent this, wash parts immediately after use. Use 1 tablespoon 20ml bleach to 1 quart 1 liter of water, soak plastic parts for a maximum of 5 minutes, then rinse thoroughly. If pulp is left to dry on the filter it may clog the fine pores of the filter mesh thereby lessening the effectiveness of the Juicer. Try slower juicing action by Remove the Juicer Cover, Remove Mesh Filter Liquids extracted from fresh fruits and vegetables form an important part of a wellbalanced healthy diet. Fresh fruit and vegetable juices are an easy to make source of vitamins and minerals. Juices are rapidly absorbed into the blood stream therefore being the quickest way in which the body can digest nutrients. You select the ingredients and decide if you need to use sugar, salt or other flavoring agents.

Freshly extracted juices should be drunk just after they have been made to avoid a loss of vitamin content. Simply peel the oranges and juice. Best to refrigerate oranges before juicing. For example, when juicing two hard vegetables such as carrots and parsnips and a softer type, such as tomatoes, start with the parsnips, then the tomato, finishing with the carrots. By alternating between soft and hard vegetables in this manner, it assists by cleaning the stainless steel filter basket between the vegetables. This enables the Juicer to extract the maximum amount of juice from each vegetable. This varies within the same group i.e. one batch of tomatoes can produce more juice than another batch. Since juice recipes are not exact, and juicing is not a science, the precise quantities of any juice are not crucial to the success of a particular mixture. If you have been making your own vegetable and fruit juices, then you know how simple it is to invent new combinations. Taste, color, texture and ingredient preferences are a personal thing. Just think of some of your favorite flavors and foods. Would they work well together or would they clash. Some strong flavors could over power the more subtle flavors of others. It is however, a good rule of thumb to combine starchy, pulpy ingredients with those high in moisture. You may choose to use one fruit to give a predominant flavor and accent it with a hint of another flavor. The choices are limited only by your imagination. However, like the juice, pulp should be used that day to avoid loss of vitamins. Apart from these, some of the other uses of pulp are to bulk out rissoles, thicken casseroles or soups or in the case of fruit, simply placed in a bowl topped with meringue and baked for a simple dessert. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average.

intechsol.kz/wp-content/plugins/formcraft/file-upload/server/content/files/1627183ef9224c---braking-manual-car.pdf

The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. See All Buying Options Add to Wish List Disabling it will result in some disabled or missing features. You can still see all customer reviews for the product. Then again in the 80s read about the benefits of juicing and bought another juicer to give it another try. After several weeks and much hassle this juicer too was given to charity. Even in the 90s I bought a Jack LaLane juicer and thought, finally this has got to be a great juicer, well 3 strikes you are out, this one also didnt make it past a month in my overcrowded pantry. Here it is 2010, I have hit 70 and am embarking on a new way to eat and stay fit. I purchased the Breville from Amazon.com and it was delivered two days ago. I cant say enough good things about this machine. It is powerful, fast, not at all messy and I love the fact that you insert an antifrother in the cup so the juice is clear and pure, clean up was a breeze and the machine even looks great on my counter, very modern looking. Think I finally found a juicer I can use for the long haul and will recommend it to everyone who asks me. Please try again later. Hindilu 5.0 out of 5 stars Then again in the 80s read about the benefits of juicing and bought another juicer to give it another try. After several weeks and much hassle this juicer too was given to charity. Even in the

90s I bought a Jack LaLane juicer and thought, finally this has got to be a great juicer, well 3 strikes you are out, this one also didnt make it past a month in my overcrowded pantry. Here it is 2010, I have hit 70 and am embarking on a new way to eat and stay fit. I purchased the Breville from Amazon.com and it was delivered two days ago. I cant say enough good things about this machine.

It is powerful, fast, not at all messy and I love the fact that you insert an antifrother in the cup so the juice is clear and pure, clean up was a breeze and the machine even looks great on my counter, very modern looking. Think I finally found a juicer I can use for the long haul and will recommend it to everyone who asks me. Please try again later. Please try again later. Frank Ruscigno 5.0 out of 5 stars I juice just about every day. Does everything they advertised it would do with no problems. I have juiced all types of fruits and vegetables and it has worked fine. I have not tried tomatoes, pineapples or oranges yet so I really cant give an opinion on how it juices them. One thing I need to say, the chute for the produce is wide, can put multiple carrots in at the same time and will accept small apples and beets without cutting but you are still going to have to cut some produce up to get it in the chute, but for the most part I havent had to cut up much. It had free shipping and it took a little over a week to get from the supplier, but it came exactly on the day they said it would come. Another thing, if you put a small plastic bag in the pulp catcher as Beville suggests it serves two purposes. First, it makes the juicer easier to clean because you just throw out the bag and the pulp catcher is clean and it stops small juiced particles from winding up on your counter top. Cleaning it is not a problem either but like all juicers and I have had two others, cleaning is easy but I still find cleaning these things a hassle. It is dishwasher safe as advertised, I put it in the dishwasher a few times without any problems. I have had the Jack LaLanne juicer in the past and I can say this, no matter how much produce I put through this Breville juicer it never clogs and starts to walk on the counter top like other juicers do, like my Jack LaLanne did.

The entire juicer is made of plastic including the base but it still seems to be built sturdy, all parts fit together nice and it seems to be solid. It is also way more powerful than most others also so for the price of this juicer compared to others it is an absolute bargain. Hope this helps you in your search for a juicer, I love it and for the short time I have used it I have had no problems at all. Please try again later. Please try again later. Lynn K 5.0 out of 5 stars It was waaaayyy too difficult to take apart and clean and had paper filters that were just a mess. My husband had Lymes Disease this year and was really sick. The antibiotics actually made him feel worse, so I decided to try to build up his strength with organic fresh fruits and veggies. The best way I could think of to do this was juicing. After reading all your reviews, I ended up with this model Breville. I just LOVE it! The ease of use, ease of cleaning and amount of juice is just amazing. I have tried every conceivable fruit and veggie in combinations, adding a hunk of ginger and something green. Wow. My hubbie is so addicted now that I had to buy another one the compact model for our boat, so on the weekends he would still be able to have his juice. You do have to make sure the top is covered or you will get flying pulp on the ceiling, but as long as you know that, it is just wonderful. Highly recommended.. Please try again later. Please try again later. Keri 5.0 out of 5 stars I have not been disappointed with my purchaseth longest part of the process is the washing of the veggies. The juicer is very quick, and clean up is super fast and simple due to the easy access of the removable parts. Ive never owned a juicer before, but I had no problem figuring out the Breville. When I got the Breville I had it up and running in about 10 minutes, including reading the instructions. My husband was impressed with the power of the engine. Its an apt comparison.

My blender, an old rickety model, is louder and more annoying for sure. The Breville is loud but smooth sounding. Although the large apples did not fit down the spout, the average sized pears did. It juices quickly and effectively, and the pulp is moist enough to stick together, but not moist enough to drip. My dogs love the pulp, so nothing goes to waste. Its healthy for the whole family. The Breville also makes great OJ. I would suggest adding lemons and tangerines to your orange juiceits a

tasty mix in the Breville. Good luck shopping the Breville is a great choice. Please try again later. Please try again later. Jane Tarzana 5.0 out of 5 stars But this Breville juicer IS. I have used it EVERY DAY sometimes twice a day to make green juices and my husband makes fruity juices. We are hooked. Friends complained about how difficult and time consuming it was to clean their juicer so I'm elated I got this model because it's designed to take apart quickly and easily, and clean up is really not a big deal. It's all dishwasher safe. Need I mention I have lost 6 lbs since juicing. It's truly the epitome of losing weight and not thinking about it. Please try again later. Please try again later. Dana 5.0 out of 5 stars I was worried this would be too loud, but it is no louder than any other kitchen appliance. My blender makes more noise than the Juicer. It is dry like styrofoam when I juice carrots, beets, cabbage, apples, etc. I am very impressed with the amount of juice that is extracted. Clean up is very simple. A hint for juicing leafy greens: While the machine is OFF, I ball up some spinach, stuff it in the chute, add parsley, or other fine leaf green, add another ball of spinach, then put a beet or apple on top and pack it down with the plunger, then turn it on while pressing down on the plunger. Works great for me. Please try again later. Please try again later. Ari Goldstein 5.0 out of 5 stars Things to keep in mind: 1. Use a bag to line the waste container before you juice.

2. Clean up juicer first, especially the filter using the included brush, before you drink the juice. 3. Let the juicer take the veggies and other product at its own pace. When I forced the product through the unit, the pulp was still moist. When I let the juicer take its time, and pushed lightly on the plunger, it took more juice from everything. 4. Use a standard citrus juicer for oranges, lemons, and grapefruits. 5. Consider using alternative means of juicing bananas. This motor is amazing, the plastic construction is amazing, the price is just right. Please try again later. Please try again later. My mom had given me a very popular juicer that she never used. I used it and it was a total disaster. I juiced 5 apples and didn't even get a cup of juice. What I got was a bunch of soggy pulp and juice under the basket. I didn't bother to clean it afterwards, I just threw it in the trash. The juice that I did get was delicious so I decided to search for a better juicer. I read all the reviews and this one seemed to be very promising. I haven't had any problems with the juicer as some of the other owners have had. Overall, I think this is a great juicer because it: 1. is easy to clean 2. provides maximum juice extraction, with minimal waste 3. doesn't require the food to be chopped or diced 4. extracts the juice quickly 5. is attractive enough to leave on the counter. The juicer is loud but I can't think of any reason that it needs to be quiet. It's not like it runs all day. Please try again later. Please try again later. Jason 5.0 out of 5 stars If you're going to run a lot of fruit through to completely fill the pitcher, take the time to pull out the screen and clean it a few times. I ran an entire pineapple through, the screen removed, and it gummed up the screen a bit. I noticed when juicing soft fruit the screen gums up faster and you can wind up with juice in your pulp can, and that's juice you're not drinking. Works great. I call it the Binford 6100 man's juicer. Oh oh oh oh oh.

My dad wanted to go get a tree branch and run through it when he saw me throwing everything through it. He bought the gas-powered blender that's mounted on handlebars and is jealous of the juicer. One thing I noticed is this juicer only gets a little juice on your table, if any at all, which is a huge plus compared to some others. Please try again later. Please try again later. Jody Gentian Bower 4.0 out of 5 stars I find it very easy to use and to clean. I have had no problem putting whole carrots and apples and even ginger root in the machine; it grinds them all in seconds, no problem. My only quibble with the Breville is that the leftover pulp is quite wet and I feel I'm not getting all the juice I could out of what I put in. I've even pulled the pulp out and put it through the machine again to get more of the juice. But considering the Breville costs about 40% of what I would have to pay to get a more efficient extractor, this is a small quibble. Please try again later. Please try again later. It's difficult to pull apart for cleaning, which sometimes stops me from using it. It does do a great job of juicing and you can juice 45 carrots or celery sticks at once, which is great. My son loves the apple juice it makes and it's easy because you can put them in whole, no need for cutting, peeling or coring. Fast, gets out every bit of juice, can juice apples whole, very large, takes up a lot of space, hard to

clean, but most juicers are. The grater that juices is very difficult to remove for cleaning Like Share More Similar opinion. Write a review on ProductReview.com.au ! Looking for Juicers. Read the reviews for Torus T1000 Classic Slow 17 reviews Ad LilyToot AU Probably should have gone for a refund but was too busy at the time. Now using it again after about 5 years of it being stored away. Nothing in the instruction booklet about what to do about unjuiced chunks. Very noisy. Hard to unclip the locking. Read more arm; hard to remove the filter basket for cleaning.

The waste container doesn't sit flat; it's taller than the waste chute, so I have to sit the machine on a board to keep it higher than the waste container. It's really good to have fresh juice on the weekends in summer. Plus it's amazing what fruit goes really well with vodka. Makes pretty good juice no bits in the juice and it's quick. Everything washes up really well in the dishwasher, who could be bothered washing it up by hand. It's really loud, sounds like a jet engine taking off and if you don't have a tea towel under it, the engine is so strong that it skids all over the bench. Like Share More Similar opinion. Write a review on ProductReview.com.au ! Find out how Breville Juice Fountain JE900 compares to other Juicers Know better, choose better. Compare all She said 12 reviews 8 likes Problem is, I find it almost impossible to remove the grater part after using it. Because of this, would not buy again. Write a review on ProductReview.com.au ! harrang 9 reviews I would say the only down side is storage. It makes juice easily and tastes good. The spout for apples etc is good. I like the recipes provided with it. Comes apart for cleaning with brush provided. It is a little big which makes storage an issue. Plus cleaning parts can be a little time consuming, but all juicers have this issue. Like Share More Similar opinion. Write a review on ProductReview.com.au ! Lianax3 31 reviews 3 likes I have enjoyed using this even the kids love it when we start it up on the weekend. Makes the best juice provided you use the right ingredients it extracts a lot of juice from your fruit and vegies just remember to do it slowly and if you are mixing items alternate between soft and hard items. It has stayed sharp and I have had mine for 6 years and used it quite often. It's a stylish thing and a point of conversation so leave it out if you have the bench space. It is a bit bulky and noisy but they all are. Like Share More Similar opinion. Write a review on ProductReview.com.au !
